make fun of your appearance to be funny? No

I was teased relentlessly growing up and throughout middle school over something as trivial as looks.

Thus, I'm unamused by jokes picking on someone else's appearances.

I do not keep company who do so. I might not be a harsh judge of looks, but I am finicky with character.

SNAILORDS

Glad Webtoon pays and I no longer need to agree to meaningless dates for food purposes

Derrière: Euphemism for booty.
Debase: Demeaning, degrade, abase.

You're insecure, that's on you Don't go debasing another to stroke your fragile ego
Oh, chill. I was just being funny Where's your sense of humor, girl?
Wanna see a magic trick? I can make it like David Copperfield* and vanish outta here
Before I smack you with a humerus bone outta annoyance
Girl. Girl. Girl...
See I m funny as fu Did I

Yeah... unless a female dog in yoga pants actually just walked in,
I assume you're talking about a human female
So if that lady you're smacking talking about comes over here to kick your ass,
You know what I'm gonna do?
Gimme a K—
Gimme an I—
Give me a kick his derrière*!

Another Webtoon I never miss an update of. My favorite part is the character designs, which are thoroughly clever -- especially the outfits. When he draws Life, it's some sort of hella rad demonic jester.

When I draw Life, it's a purple buff dude.
